Lakshmi Narain College Of Technology Excellence,
Bhopal

Project

Educational site

The goal of this project is to connect people through posts, where people ask their queries and answers will be provided by peer-to-peer connections as comments. This is for education purposes. Every post has the option of voting. There are some rules in my project, people can't use bad words, and if it is seen that people's accounts would be blocked.

My Portfolio with small practicing projects, I provided source code with documentation.
